FOR IMMEDIATE RELEASE

Eron Miller, DoD Satellite Communications Expert, Joins Suss Consulting

JENKINTOWN, PA., May 7, 2020 – Suss Consulting, a leading provider of federal opportunity capture, proposal, price-to-win, market research and strategic planning services, today announced the addition of Eron Miller as an Executive Consultant. Mr. Miller held leading Department of Defense (DoD) Satellite Communications roles including: Chief, DISA SATCOM Division Infrastructure Directorate; Chief, DISA COMSATCOM Services Division; and DoD CIO Senior SATCOM Policy Analyst.

“Eron will help our clients design and deliver winning solutions to next generation SATCOM requirements at Air Force Space Command, Military Sealift Command, Navy, and other DoD and Federal components that depend on satellite technologies to support their vital missions,” said Warren Suss, President of Suss Consulting.

During Mr. Miller’s seven years as the Chief of the DISA SATCOM Division and Chief of the Services Division at DISA’s COMSATCOM Center, his responsibilities included overseeing the development, evolution, and execution of the COMSATCOM Program Management Office, the MILSATCOM Gateway Program Management Office, and the Enhanced Mobile Satellite System (EMSS) Program.

He was responsible for the development and implementation of the Agency’s overarching contracts for COMSATCOM services with projected ceilings over \$5 Billion dollars. He was also responsible for overseeing the leasing of commercial satellite communications services for the DOD and for managing cost, schedule, and performance of over \$700M annually in SATCOM services and capabilities. He provided acquisition support to customers across DoD. He led the development, submission, and execution of COMSAT, EMSS, MILSATCOM and AISR budgets. He was Chair of the SATCOM Configuration Control Board (CCB), was lead and co-chair for the Commercial Space INFOSEC Working Group (CSIWG), and served as an alternate to the DISA Vice Director and Infrastructure Executive to the Defense Space Council.

For the DoD CIO, he was responsible for leading the development and maintenance of SATCOM reference architectures spanning space, ground and terminals, including the best practices and standards to facilitate the alignment of Service owned solution architectures to improve interoperability and increase efficiency. He led the Enterprise Working Group (EWG) of the Wideband Communications Services Analysis of Alternatives (WCS AOA) and developed the framework for a new DoD SATCOM governance structure.

Mr. Miller is a level III Defense Acquisition Workforce Improvement Act (DAWIA) Certified Program Manager with extensive knowledge in the acquisition of services to meet governmental requirements.
