DEPARTMENT OF THE AIR FORCE
OVERVIEW OF UPCOMING LARGE CONTRACT AND TASK ORDER RECOMPETES
06-May-26**

The following report provides a business development and capture tool for identifying and pursuing significant federal contract opportunities. It separates these opportunities into three categories based on expected contract/task order expiration dates:

- Near-Term: contracts and tasks that expire within one year of this report date
- Mid-Term: contracts and tasks that expire between two and three years of this report date
- Long-Term: contracts and tasks that expire beyond three years of this report date

All data is filtered for information technology NAICS codes (select 51x, 54x codes).

Task data is filtered for awards with greater than \$25m in total obligations over the five calendar years prior to this report date.

The dataset includes subagency/contract/task, contractor, business size, yr1-yr-5 lookback obligations, total obligations, potential obligations, start date, and potential end date.

In some cases there are missing data points due to inconsistencies in usaspending.com reporting.
