OVERVIEW OF UPCOMING LARGE CONTRACT AND TASK ORDER RECOMPETES
07-Aug-26**

The following report provides a snapshot of expiring large contracts and task orders with likely recompetes during three calendar year periods:

- Near-Term: Report Date + One Year
- Mid-Term: Near-Term + Two Years
- Long-Term: Greater than Mid-Term

The summaries are based on total, actual contract obligations over a five year look-back across information technology NAICS codes (select 51x, 54x codes) on contracts and task orders with a total value of more than \$25M. All data is based on funding agency and subagency regardless of contracting office.

The report includes an overview of the top overall and small business contractors across the five year window. All summaries are compiled from the current usaspending.com archive flat files. Many small business awards include large business entities due primarily to merger and acquisition activity.
