

FOR IMMEDIATE RELEASE

Alan Lewis, Top DISA Executive, Joins Suss Consulting

JENKINTOWN, PA., September 4, 2019 – Suss Consulting, a leading provider of federal IT opportunity capture, proposal, strategic planning, and market research services, today announced the addition of Alan Lewis as a Principal Consultant. Mr. Lewis served as a leading DISA executive for thirteen years with roles including: Vice Director of the DISA Development and Business Center; PEO for Enterprise Services; Vice Director, DISA Computing Services Directorate; Principal Director of the Global Information Grid (GIG) Enterprise Services Engineering Directorate; and Director of the Defense Spectrum Organization and Program Executive Officer (PEO) Spectrum.

“Alan’s broad DISA leadership experience in developing, acquiring, and delivering the full range of DISA-provided capabilities and services will help our clients excel with winning solutions that meet the emerging needs of DISA and its mission partners,” said Warren Suss, President of Suss Consulting.

In his role as Vice Director of the DISA Development and Business Center, Mr. Lewis led the formation and transition of this new organization, reassigning over 1200 personnel and assuming responsibility for over 500 contracts and \$1B in funding.

As PEO for Enterprise Services he led the acquisition, delivery and sustainment of all DISA provided Enterprise Services. In a prior role as Vice Director, DISA Computing Services Directorate (CSD), he led the acquisition, delivery, sustainment, and operation of world-class computer processing capabilities, systems management, communications and storage in support of DoD military services, agencies, and combatant commands. He planned and executed an annual Defense Working Capital Fund (DWCF) budget in excess of \$1B.

Mr. Lewis also served as the DISA Principal Director of the Global Information Grid (GIG) Enterprise Services Engineering Directorate, leading 700 government and contractor personnel in the acquisition, engineering and sustainment for DoD global terrestrial transport, satellite systems engineering, wireless technologies, network engineering, nuclear, special national and presidential level communications, national and international communications standards, DoD enterprise-wide systems engineering, and modeling and simulation.

For two years before retiring from DISA, he served as the Director of the Defense Spectrum Organization (DSO) and Program Executive Officer (PEO) Spectrum.

Prior to joining DISA, Mr. Lewis served 20 years in the U.S. Navy in a variety of operational, technical and acquisition roles, and also served in industry as Technical Director and Program Manager at Northrop Grumman Corporation and as Regional Leader at Nortel Networks.
